 SUBJECT: AWARD TO LOW RESPONSIBLE BIDDER C.R.S. 43-1-113 (16)

Pursuant to C.R.S. 43-1-113(16) as amended, it has been determined that it is in the best financial and economic interest of the State to award the US 287 Resurfacing project, NH 2873-176 (20099) to the low responsible bidder.

This project consists of resurfacing US 287 from Harmony to Mulberry with HMA, milling, traffic control, concrete curba and gutter repairs in Fort Collins, Colorado, Larimer County.

Attached please find a cost justification detailing the engineer's estimate and the bid proposal received from the only bidder, Martin Marietta Materials, Inc.

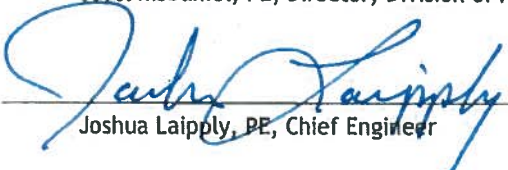

One contractor submitted bid for resurfacing project. The work hour limitations for the night paving decreased the contractor's anticipated production rate by 40%. The fixed completion date for the project also resulted in a higher cost for the night production required since the plants already have commitments for the construction season. The other contractors that are located in this region are already fully committed for projects this construction season. It is unlikely that this project would attract more bidders or the cost would be substantially lower if the project were re-advertised.

The City of Fort Collins will commit funds (-\$500K) to the project if award is approved by the Executive Director.

Award of the project to the low bidder is recommended if additional funding is available.
