(303)757-9040
FAX (303)757-9868

DATE: July 29, 2011

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: Revision of Section 105, Construction Drawings

Effective this date, our unit is issuing a new standard special provision, Revision of Section 105, Construction Drawings. This revised standard special is 1 page long. It should be used on projects where construction drawings maintained by the Contractor are not required. The use of this new standard special provision is mandatory on appropriate projects advertised on or after August 25, 2011. Please feel free, however, to include it in projects advertised before this date.

This new standard special deletes subsection 105.02(f) when the construction drawings maintained by the Contractor are not required for the project, as determined by the Engineer.

Those of you who keep books of Standard Special Provisions should add this new standard special to your files. For your convenience, we are attaching a new Index of Standard Special Provisions. In addition, you will find this and other special provisions that are being issued this date in one place in the CDOT Construction Specifications web site:

<http://www.coloradodot.info/business/designsupport/construction-specifications/2011-Specs>

Please click on the hyperlink titled "Specification Changes Under Consideration" to access this and other special provisions that have been issued as of this date.
