FAX (303)757-9868

**DATE:** July 28, 2011

**TO:** All Holders of Standard Special Provisions

**FROM:** Larry Brinck, Standards and Specifications Engineer

**SUBJECT:** Revision of Section 703, Concrete Aggregates

Effective this date, our unit is issuing a new standard special provision, Revision of Section 703, Concrete Aggregates. This revised standard special is 1 page long. It should be used in projects having any type of concrete construction, beginning with projects advertised on or after August 25, 2011. Please feel free, however, to include it projects advertised before this date.

The modifications contained in this new standard special define that coarse and fine aggregates be based on current AASHTO requirements, rather than by the use of Table 703-1, as determined by the Engineer or Contractor.

Those of you who keep books of Standard Special Provisions should add this new standard special to your files. For your convenience, we are attaching a new Index of Standard Special Provisions. In addition, you will find this and other special provisions that are being issued this date in one place in the CDOT Construction Specifications web site:

<http://www.coloradodot.info/business/designsupport/construction-specifications/2011-Specs>

Please click on the hyperlink titled "Specification Changes Under Consideration" to access this and other special provisions that have been issued as of this date.
