

MEMORANDUM

DEPARTMENT OF TRANSPORTATION

Project Development Branch, Standards and Specifications Unit
4201 East Arkansas Avenue
Denver, Colorado 80222
(303)757-9011
FAX (303)757-9820

DATE: October 27, 2011

TO: All Holders of Standard Special Provisions

FROM: Larry Brinck, Standards and Specifications Engineer

SUBJECT: Revision of Section 105, Disputes and Claims for Contract Adjustments

Effective this date, our unit is issuing a revised version of the standard special provision, Revision of Section 105, Disputes and Claims for Contract Adjustments. This revised standard special provision is 23 pages long, and replaces one of the same name dated May 5, 2011.

Use this revised standard special provision on Design-Bid-Build projects, Modified Design/Build projects, and Design/Build projects unless your modified version of the SSP is approved by the Standards & Specifications Unit beginning with projects advertised on or after November 24, 2011. Please feel free, however, to use this standard special provision on projects advertised before this date.

This revision includes requirements for the Standing Disputes Review Board's advisory opinions. This subsection had been inadvertently excluded from the 2011 edition of the *CDOT Standard Specifications for Road and Bridge Construction*.

The revised standard special has been uploaded to appropriate locations on the CDOT Standards and Specifications web page. For your convenience, however, you can find this and other documents that are being issued this date, along with a new Index of Standard Specifications at:

<http://www.coloradodot.info/business/designsupport/construction-specifications/2011-Specs/recently-issued-special-provisions>

Those of you who keep books of standard special provisions should replace the now obsolete version with this one.

Please feel free to contact this office if you have any questions or comments.
