

**COLORADO**  
Department of Transportation  
Construction Engineering Services  
Division of Project Support  
Standards and Specifications Unit

DATE: July 27, 2022  
TO: Writers and Users of Special Provisions  
FROM: Michele Kayen, P.E., Specifications Engineer *Michele Kayen*  
SUBJECT: Use of Special Provisions with the 2022 Standard Specifications book

### **STANDARD SPECIAL PROVISIONS**

The [October 1, 2022 Standard Special Provisions Index](#) are all dated October 1, 2022. They have been issued for use with the 2022 edition of the Standard Specifications for Road and Bridge Construction. Use these standard special provisions according to the instructions on the index.

Copies of the 2022 standard special provisions may be printed or downloaded from the [2022 Construction Specifications website](#).

### **PROJECT SPECIAL PROVISIONS WORKSHEETS**

[Project special provision worksheets](#) that worked with the 2021 Specification Book may not work with the 2022 Specification Book. In some cases, all or part of the revisions in the project special provision may have been incorporated into the 2022 Specification Book. In other cases, subsection numbers have changed due to added provisions. Before using old project special provisions with the 2022 Specification Book, compare them with the book. Make sure that they are still needed and that they modify the correct subsections. Persons that maintain project special provisions for their organization to disseminate for use on appropriate projects should check them and revise them as necessary for use with the 2022 Specification Book.

[Sample Construction Project Special Provisions](#) and worksheets for the project special provisions that are compatible with the 2022 Spec Book common to most projects can be found on the Construction Specifications page of CDOT's website.

### **IMPORTANT REMINDERS:**

- All new or revised project special provisions should be reviewed by the Standards and Specifications Unit before their use. Contact [Michele Kayen](#) or at (303-757-9402) for assistance.
- The Department of Transportation will begin use of the 2022 edition on all projects advertised for bids after **October 1, 2022**. [The PDF version is available now online](#).
