Description of product, (be precise, include product differentiation between your products &/or competitor's products):
Series 200 Removable Construction Grade marking tape is a preformed polymer road marking film specifically designed for usage on asphaltic and concrete surfaces. Series 200 tape consists of pre-applied, pressure sensitive adhesive along with high quality polymeric materials, pigments and glass beads that assure long term retroreflectivity. The tape contains no metallic foils. Air and surface temperature must be 50°F and rising for application. Roadway can be open to traffic immediately after placement of the tape.

Usage of product, (be specific to CDOT highway activities only):
ATM 200 tapes safely guides motorist through construction areas.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):
Superior reflectivity at night. Recommended for construction projects up to one year in duration. Adhesive system extends application season typically shortened by marginal weather conditions. Highly conformable composite materials facilitate adhesion. Easy removal due to a reinforced fabric backing.
