Web-site address: www.maxwellproducts.com

Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)
Elastoflex 61 conforms to the ASTM D 6690 Type II specification. There is no minimum heating time as the materials are provided pre-blended and pre-reacted. It may be heated to the application temperature of 380°F and then used.

Bond test complies with Colorado's CP-L 4101.

Restrictions, (installation and/or use):

Use of the product, (be specific to CDOT highway activities only):
Hot Poured, Joint/Crack Sealant (ASTM D 6690 Type II) or as a Single Component, Hot Applied, Elastomeric Membrane for Bridge Deck Waterproofing.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):
This product has been used for many years in Colorado both as a crack sealant for asphalt and a joint sealant for concrete as well as a bridge deck membrane.
It has been previously evaluated by the CDOT Bituminous Lab and has a proven record of performance both in the lab and in the field.

Specifications, (listing those applicable is required) **& Certificate of Compliance** (required to certify compliance with listed specifications):

- ☐ CDOT :
- ☒ ASTM : D 6690 Type II
- ☒ AASHTO : M 324 Type II
- ☐ FHWA :
- ☐ other :

Product testing, (from national/independent laboratories or universities) **& Certified Test Report** (CTR required to validate all claims):

- ☐ NTPEP-AASHTO :
- ☐ FHWA :
- ☐ other :
- ☒ other : TEI Testing Services (3-07-2010)

State DOT Approvals, (current documentation required):

Sample submitted: ☐ yes ☐ no ☒ n/a | Materials Safety Data Sheets (MSDS): ☒ yes ☐ no ☐ n/a
