Web-site address: www.maxwellproducts.com

Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)
Elastoflex 71 conforms to the ASTM D 6690 Type IV specification. There is no minimum heating time as the materials are provided pre-blended and pre-reacted. It may be heated to the application temperature of 380°F and then used.

Bond Test complies with Colorado's CP-L 4101

Restrictions, (installation and/or use):

Use of the product, (be specific to CDOT highway activities only):
Hot poured, Joint/Crack Sealant (ASTM D 6690 Type IV)

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):
This product has performed well for many years as a Crack Sealant for Asphalt and a Joint Sealant for Concrete. It is particularly effective in cold climates. This product has also performed very well in test from Independent Laboratories.

Specifications, (listing those applicable is required) **& Certificate of Compliance** (required to certify compliance with listed specifications):

- ☐ CDOT :
- ☒ ASTM : D 6690 Type IV
- ☒ AASHTO : M 324 Type IV
- ☐ FHWA :
- ☐ other :

Product testing, (from national/independent laboratories or universities) **& Certified Test Report** (CTR required to validate all claims):

- ☐ NTPEP-AASHTO :
- ☐ FHWA :
- ☐ other :
- ☒ other : TEI Testing Services (1-31-2011)

State DOT Approvals, (current documentation required):

Sample submitted: ☐ yes ☐ no ☒ n/a

Materials Safety Data Sheets (MSDS): ☒ yes ☐ no ☐ n/a
