COLORADO DEPARTMENT OF TRANSPORTATION

PRE-APPROVED PRODUCT EVALUATION REQUEST & SUMMARY

APL Reference No. 3545-12

Product Evaluation Coordinator
Colorado Department of Transportation
4670 North Holly Street, Unit A
Denver, Colorado 80216

Material code: 713.05.01.00

Material code description full name: Traffic Control, Sign Hardware

FOR INTERNAL CDOT USE

PART 1

Product name:	Product category:
SNAP'n SAFE Breakaway Round Sign Post Coupler	Traffic Control\Post Anchoring\Mechanical System
Product representative (name & address): Attn: Karen Hentemann Intermountain Sign & Safety 5320 E. Seltice Way Post Falls, ID 83854 Phone: (208) 773-3119 FAX: (208) 733-3669	Manufacturer (name & address): Attn: Jennifer Schiess Designovations, Inc. 7339 Wildwood Road Stillman Valley, IL 61084 Phone: (815) 645-8598 FAX: (815) 645-2389
Web-site address: http://www.intermountainsign.com	Web-site address: http://www.designovations.com

Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

The ground mounted SNAP'n SAFE Breakaway Round Sign Post Couplers are designed to provide safe roads while saving time and money. Roadways are safer because upon impact, the sign post breaks away at the coupler and does not strike the windshield or roof of the vehicle. This mandate is specified in the updated NCHRP Report 350. The SNAP'n SAFE Round Couplers are used in conjunction with standard round post profiles as a breakaway system for small ground mounted sign supports. The clean design of the SNAP'n SAFE allows for easy installation. Simply insert the SNAP'n SAFE coupler into the anchor post, slide the sign post on top of it and then secure by tightening the set screw. Special tools are not needed. At impact, the sign post breaks away at the coupling and does not damage the anchor post. We GUARANTEE that you will save at least 42% on your sign post installation and repair time. In addition, SNAP'n SAFE Round Couplers and existing sign posts can be combined as part of a retrofit application. Simply cut the sign post 3-4 inches above ground level, insert the SNAP'n SAFE Round Coupler and follow the previously mentioned installation steps. SNAP'n SAFE implementation will reduce overall road crew exposure to traffic as well as save departmental costs because sign installation and repair can be done in half the time with one person.

Restrictions, (installation and/or use):

For use with Round/Tube Sign & Anchor Posts having O.D. of 2 3/8" or 3" respectively.

Use of the product, (be specific to CDOT highway activities only):

SNAP'n SAFE Breakaway Round Sign Post Couplers are utilized as a breakaway device for permanent small sign supports on roads and highways.

Benefits to CDOT, (how will your product enhance quality, improve safety, save money, be a better value then other manufacturer's products):

1. Safer Roadways for Drivers - Meets and exceeds the more stringent damage levels contained in the updated NCHRP Report 350 specifications for ground mounted sign supports and meets the nationally mandated requirement of the MUTCD Section 2A-19. FHWA accepted.
2. Saves Money - Used with standard round sign & anchor posts, special tools are not required, after impact, anchor replacement is diminished due to the capability of reuse.
3. Reduces Time and Labor - Clean design & minimal elements allow for easy installation & repair, time is cut in half due to a reduced crew and reduced anchor replacement.

Specifications, (listing those applicable is required) **& Certificate of Compliance** (required to certify compliance with listed specifications):

- [x] CDOT : Standard Specifications, Section 630.09
- [ ] ASTM :
- [ ] AASHTO :
- [x] FHWA : Approval Letters: HSSD/SS-146 (March 16, 2007), HSSD/SS-165 (January 21, 2011)
- [ ] other :

Product testing, (from national/independent laboratories or universities) **& Certified Test Report** (CTR required to validate all claims):

- [ ] NTPEP-AASHTO :
- [ ] FHWA :
- [x] other : Texas Transportation Institute (9-28-2006)
- [ ] other :

State DOT Approvals, (current documentation required):

Indiana, Minnesota, Nevada, North Carolina, Utah, Virginia

Sample submitted: [ ] yes [■] no [ ] n/a | Materials Safety Data Sheets (MSDS): [ ] yes [ ] no [■] n/a

Notes/Additional Comments

The SNAP'n SAFE Breakaway Round Sign Post Coupler is a member of the SNAP'n SAFE Product Family. The SNAP'n SAFE products accommodate standard square, round and u-channel post profiles. All products are accepted by the Federal Highway Administration. Proudly, the SNAP'n SAFE couplers are manufactured in the U.S.A.
