Description of the product: (Include specific quantifiable details from tech data sheet. Advertising generalities are not appropriate.)

Ultra-Drain Guard, Reusable Model is a temporary catch basin filter made from high visibility, high flow woven fabric that removes sediment, trash and debris from entering a catch basin. Rugged polypropylene construction can be easily rinsed and reused.

Restrictions, (installation and/or use):

The Ultra-Drain Guard R.M. will function properly only when the product is installed and maintained as recommended by UltraTech International

Use of the product, and Benefit to CDOT (be specific to CDOT highway activities only):

Storm drain inlet protection (Type 3). Economical, reusable, made to fit any size inlet. Easy to install under grate design so it is not easily disturbed. Overflow holes and curb filter options available.
