

CADO - Display Time Entry Status

Work Instruction

Purpose

Use this procedure to query timesheet entries and to check the status of the entries for specific employees, groups of employees and/or periods of time.

Trigger

Perform this procedure prior to the payroll deadline to ensure that all timesheet entries have been approved. This procedure can also be used to query timesheet data in other statuses or to validate employee entries.

Prerequisites

Time entry has been made in CAT2.

Transaction Code

CADO

Helpful Hints

None.

Procedure

1. Start the transaction using the transaction code. SAP displays the *Display Time Sheet Data* screen.

| Personnel no. | Required | Number that identifies an employee. Example: 3444 |

| Field | R/O/C | Description |
|--------|----------|--|
| Status | Required | Current process status of the data used in the report. |
| | | Example: 10 = In process |
| | | In process(10) indicates the employee has made an entry, but the entry has not been released for approval. |
| | | Released for approval (20) indicates the entry has been released in timesheet and is waiting for management approval. |
| | | Approved (30) indicates the entry has had management review and has been approved. |
| | | Approval rejected (40)indicates the entry has had management review and has been rejected. The employee must adjust and the entry be approved before included in processing. |
| | | Changed after approval (50) indicates an entry was released, reviewed and approved by management and the employee changed the entry after the approval. The change must be re- approved to be included in processing. |
| | | Cancelled (60) indicates an entry was entered, but then deleted. |
| | | Each time sheet entry is assigned a status. This status indicates the processing status of the selected entry. |
| | | |

| Field | R/O/C | Description |

Result

You have successfully checked the status of time entries for specific employees or groups and/or periods of time.

Comments

When troubleshooting a missing time entry, validate that the entry was entered into the timesheet, approved, and transferred out of the timesheet to the Human Resources module creating Attendance records (IT2002).

CADO will not show that an entry applies to a previous day. This applies to employees who have across midnight work schedule and also work across midnight. In these situations refer to ZCAT3 to determine to which day time is attributed.
