Subject: Message for the CTIO Board
To : jennifer uebelher

Hi Jennifer, please pass on to the Board that their ticketing process is a sham. I did not receive a first notice of violation, after which I'm informed that the process has already moved to adjudication. First off, \$150 for a first offense is clearly excessive. Then to penalize after an alleged attempt to reach by mail implies an intentional attempt to evade liability, which is offensive in itself.

Shameful, transparent process to fill your coffers. Do better.

Response - 6/18/24

Dear Mr. Eck,

Thank you for your feedback on the Express Lanes Safety Enforcement Program. Your comments have been forwarded to CTIO staff and will be included in the board materials for the next meeting on June 24th, 2024.

CTIO is proactively conducting a review of the program with our Board of Directors in July. CTIO are reviewing all of the entrance and exit points (including on C-470), signage on the roadway, key takeaways, the dispute process, and a number of suggested program changes. Feedback received to date will be considered as part of this discussion. Materials associated with this meeting will be published on the CTIO [website](#).

Finally, if you would like to file a dispute or talk to someone about your case, you can visit this [website](#) and enter your information.

Best,

Simon
