Safety and Toll Enforcement Program (STEP) - Safety Patrol Sponsorship

Safety Patrol Sponsorship

- CDOT Division of Maintenance & Operations and CTIO have been discussing how to support the Safety Patrol services on I-70 Mountain Corridor from MP 176 to MP 259. These services are critical to the operations of the Mountain Express Lane (MEXL)
- STEP revenues will sponsor 9 Safety trucks at a cost of \$50 K/truck for a total of \$450,000 in year 1
- Vetted this concept and cost through our communications team and consultants to validate proposal and value to CTIO
- Win-Win for CDOT and CTIO
 - Supports DMO
 - Helps CTIO publicly support safety with its civil penalty revenues

Initial Concepts

Initial Concepts

Next Steps

- CTIO and CDOT will draft an Inter-Agency Agreement (IAA) to document terms and conditions and cost of the sponsorship
- The IAA will be presented to the CDOT Transportation Commission and CTIO Board for approval
- The IAA will initially cover sponsorship on I-70, with the option to add other corridor sponsorship in future years
- Questions?
