# SB24-032: Methods to Increase the Use of Transit

The statewide transit pass exploratory committee is created in the Department of Transportation to produce a viable proposal for the creation, implementation, and administration of a statewide transit pass. In conducting its work, the committee is required to consider specified issues and to solicit input from subject matter experts and interested parties across the state.

## Deadlines:

- ✓ CDOT Executive Director shall create a statewide transit pass exploratory committee (no later than October 1, 2024)
  - Committee shall produce a viable proposal for the creation, implementation and administration of a statewide transit pass, including recommendations for any necessary legislation in connection with the proposal (by July 1, 2026)
  - Goal of implementing a statewide transit pass (by January 1, 2028)

# Topics to be Considered by the Committee

- The logistics of creating a statewide transit pass
- A method for determining the price of a statewide transit pass
- A structure for the sale of the statewide transit pass to individuals and to employers for their employees
- The services that will be offered to statewide transit pass holders
- The types of statewide transit passes that would be offered including different options for the duration of the pass to accommodate residents and visitors
- Additional opportunities for collaboration across transit agencies in the state to make it easier and more appealing for people to use transit
- The technology that would be needed to monitor the use of the statewide transit pass and track ridership across transit agencies to assist transit agencies in determining and understanding the financial impact of the pass in the future

# Topics to be Considered by the Committee (cont)

- Any additional local, tribal, state or federal laws, rules or regulations that need to be considered in connection with the creation of a statewide transit pass
- The potential impacts that a statewide transit pass will have on transit pass programs that are currently offered by transit agencies
- The potential impacts of section 20 of article X of the state constitution to local governments in connection with revenue generated by the sale of a statewide transit pass
- A proposal for the structure and composition of a permanent advisory board to oversee the creation, implementation and administration of a statewide transit pass
- Any other issues that need to be discussed or addressed as deemed necessary and appropriate by a majority vote of the members of the committee

# Subject Matter Experts to be Consulted During the Process

- The CDOT Transit and Rail Advisory Committee (TRAC)
- Transit Agencies, including a presentation at a CASTA conference
- Members of the Public

# 16 Required Members of the Exploratory Committee

Overview of

**COtransit**

# Project Overview

COtransit aims to develop an easy-to-use mobile application (app) and web platform that allows the public to plan their entire trip and pay online, while supporting better coordination and data sharing between local transit providers.

## PURPOSE

To build a statewide, centralized platform that provides General Transit Feed Specification (GTFS) data, trip planning, and universal ticketing for Colorado travelers and transit providers (especially rural providers).

## EXISTING GAPS

While there are resources to connect the traveling public to current transit information and travel conditions, there is no centralized platform that shows the public how to connect from one transit system to another.

# Project Overview Updates

## PHASE 1

Statewide GTFS-General Transit Feed Specification project that publishes transit data to be consumed by a wide variety of applications (ex: Google Maps)

Project MVP: Creation of GTFS-feeds - features over 40 transit agencies GTFS information: <https://colorado-gtfs.trilliumtransit.com/>

## Phase 2

COtransit featuring Trip Planning and Universal Ticketing for Colorado transit providers and passengers.

Project MVP: Prototype platform

## Phase 3

Expansion! Add in additional agencies, platform capability enhancements, explore integration with private transportation providers and other transportation modes

## PHASE 1 UPDATES

Over 40 transit agencies GTFS feeds have been created and are being monitored. Over 50 AVLs have been installed throughout various beta agencies.

## PHASE 2 UPDATES

MVP Prototype is in test phase and will launch to Beta agencies first quarter 2025

## PHASE 3

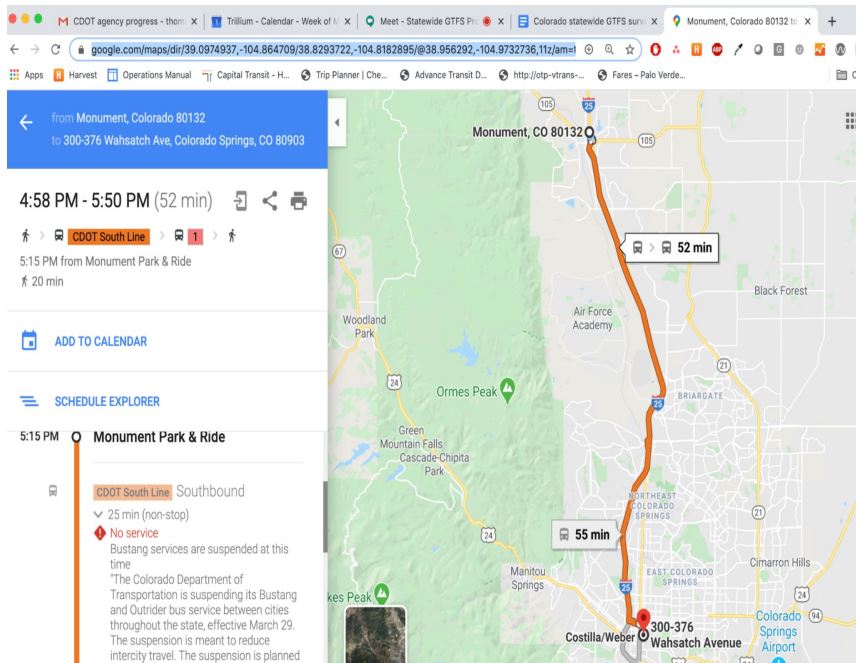

Adding several new agencies starting mid year 2025.
