

Maintenance Plan Review Process

Note: Submission should not be the first time the ITS & Network Service Branch has heard of the project or discussed this document. This submission is more of a documentation of previous discussions. If content is not previously shared with the Branch, the review process is likely to take longer and a rejection is more likely.

Notes:
 *Minor comments/revision can be made to a document without a full review being required so long as the over all meaning of the document is not altered. If comments impact the meaning or if what is proposed is not usable by the end user, then the document needs to be updated and resubmitted.

1. Drafted in June 2021
