

# SB-267 Highway Dollars at Work

COLORADO  
Department of Transportation

*New funding from the Colorado Legislature is being put to work—making our roads safer and easier to travel. CDOT has worked with our partners to create a project list that improves pavement condition and adds new capacity in strategic locations. CDOT is also using these dollars to make a first-ever focused investment in rural roads.*

## KEY FACTS\*

**\$330M**

Dollar amount for rural roads—the largest such investment in recent history

**500+**

Miles of pavement improved across Colorado.

**1974**

Date of oldest untreated road segment in project list.

**+11**

Percentage point increase in rural highway pavement condition as a result of new funding.

**74**

Projects in areas with high potential to reduce crashes.

**55**

Number of projects that will occur on a Colorado Freight Corridor.

## \$1.7 BILLION TOTAL INVESTMENT

**\$382** million allocated in FY19

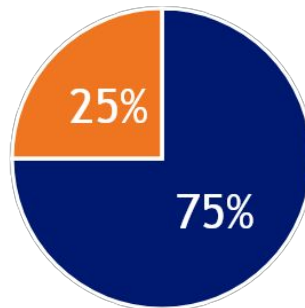

**\$450** million forecasted in FY20

**\$450** million forecasted for FY21

**\$450** million forecasted for FY22

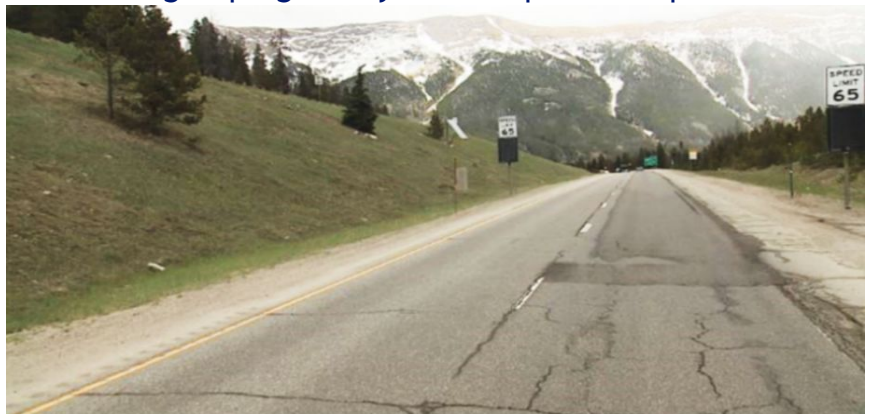

## FY20-22 FUNDING DEDICATIONS\*

- Mobility/Safety Projects
- Rural Pavement Projects

**MORE THAN 50%** of total investment addresses pavement and bridges.

First set of projects will go to construction in 2020. Track progress at [www.codot.gov/programs/your-transportation-priorities/](http://www.codot.gov/programs/your-transportation-priorities/)

\*These project stats refer to projects for FY20-22. While a majority of these projects are funded by SB-267 some projects include funding from SB-1 SB-262, and other sources.
