

CDOT's 10-Year Plan was divided into two categories of projects: 1) those prioritized for funding through the anticipated issuance of four years of funding provided by SB-1 and SB-267 and, 2) projects currently without identified funding. To date, CDOT has received two years of SB-267 revenue (2019 and 2020) along with federal stimulus funding (2021). This table indicates the projects that have received funding and are completed or advancing to construction, those proposed for funding, and those that are currently unfunded. Fact sheets are available [here](#). For real time information on these projects as they become funded, please see the updated accountability dashboard [here](#) for more information.
