

# I-25 Arapahoe Interchange Reconstruction

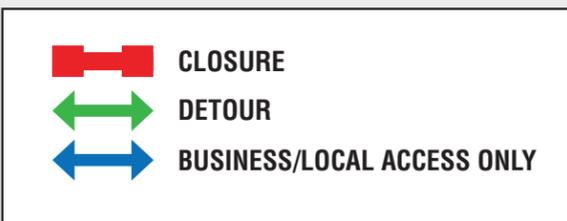

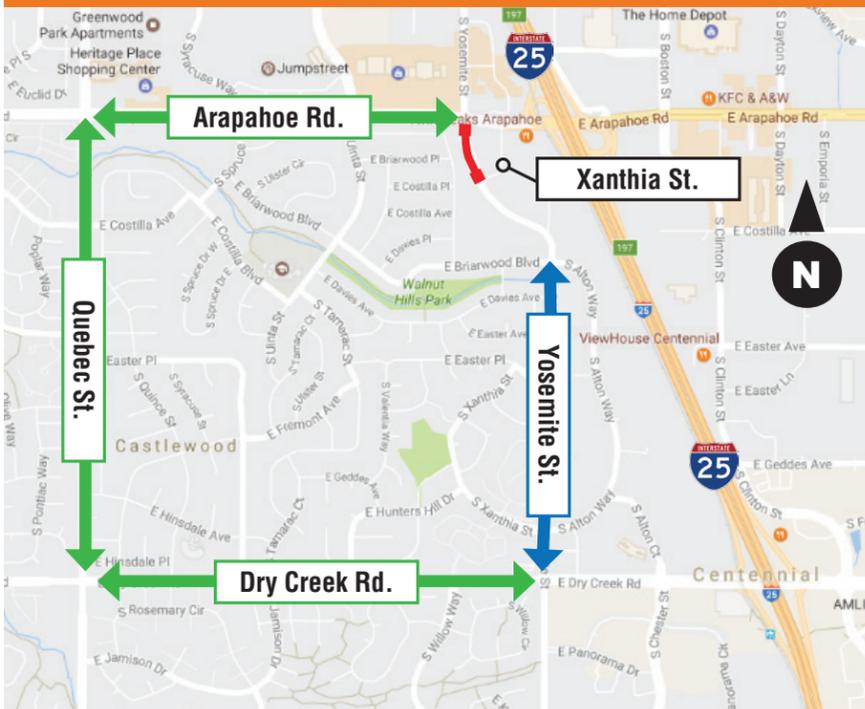

## Short-Term Closures of Yosemite Street

To expedite work and maintain public safety while minimizing long-term impacts to Yosemite Street drivers and businesses, the I-25 and Arapahoe Road Interchange Reconstruction project will close Yosemite Street in both directions day and night for several weeks. Please check our website, [codot.gov/projects/I25-Arapahoe](http://codot.gov/projects/I25-Arapahoe), for the most up to date information. The first phase will close Yosemite Street from Xanthia Street to Arapahoe Road (south of Arapahoe Road) beginning Friday night, May 12, for up to two weeks. The second phase will close Yosemite Street from Arapahoe Road to Yosemite Circle (north of Arapahoe Road) in early June for 10 days. If this work was done under the condition of overnight closures it would take at

least eight weeks to complete. These full closures not only enable the work to be done in a matter of about three weeks, but they also avoid the need to continually shift traffic and change conditions for drivers to navigate.

During these closures crews will work day and night to remove asphalt, conduct utility work and storm system improvements, adjust temporary signal heads and pave, to shift Yosemite Street traffic to the west so construction activities can commence on the east side of Yosemite Street. Intermittent lane closures will be needed to complete the work throughout the entirety of the project.

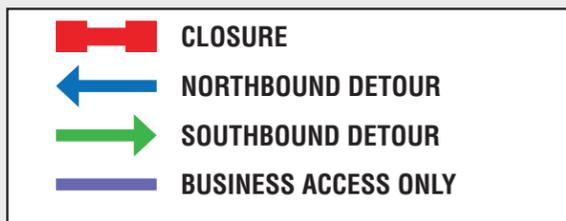

### Yosemite Closure South To Begin May 12

#### Yosemite Street (south of Arapahoe Road) from Xanthia Street to Arapahoe Road:

- Work on the south half of the Arapahoe Road and Yosemite Street intersection will take place the weekend of May 12, restricting access to Yosemite Street (south) from Arapahoe Road. Through traffic on Arapahoe Road will be maintained, but eastbound Arapahoe Road will be reduced to one through lane throughout the weekend. Yosemite Street north of Arapahoe Road will remain open.
- Access to Vision Source Eyecare, Centennial Vapor and United Nails remains open from Arapahoe Road. First Bank will be accessible from Xanthia Street but not from Yosemite Street. Southgate shopping center remains open from northbound Yosemite Street and southbound Xanthia Street.

### Yosemite Closure North To Begin Early June

#### Yosemite Street (north of Arapahoe Road) from Arapahoe Road to Yosemite Circle:

- Yosemite Street south of Arapahoe Road will be open.
- Access to Einstein's Bagels remains open from Yosemite Circle. Access to Taco Bell and Papa John's remains open from Arapahoe Road.
