

Phase 1 Bikeway Map

As part of the US 36 Express Lanes Project, finish work and final construction is ongoing on the Phase 1 bikeway. As shown on the map below in pink, the bikeway is now open from 88th Street to Turnpike Drive. Bicyclists will need to use roadway options and existing bike trails where the bikeway ends. The small section shown in brown on the east end of the project at the Westminster Hills Park is scheduled to open to the public later this month. Additional signage is being installed during this final stage. We appreciate your patience as we work to complete the bikeway.

Phase 1 of the bikeway is 11 miles long, between Westminster and Interlocken. When Phase 2 is completed in 2016, the entire length of the bikeway will be 18 miles, connecting Denver to Boulder. For more information about the project, please visit www.codot.gov/projects/US36ExpressLanes.
