

Wrong-Way Signage Improvements Phase 2

What Work is Being Done?

The Colorado Department of Transportation, in partnership with CEC Infrastructure Group, LLC, is replacing wrong-way roadway signage starting on Monday, Jan 4. Work will take place along multiple different highways and interstates throughout the metro area, as well as six different counties including: Adams, Arapahoe, Boulder, Denver, Douglas, and Jefferson.

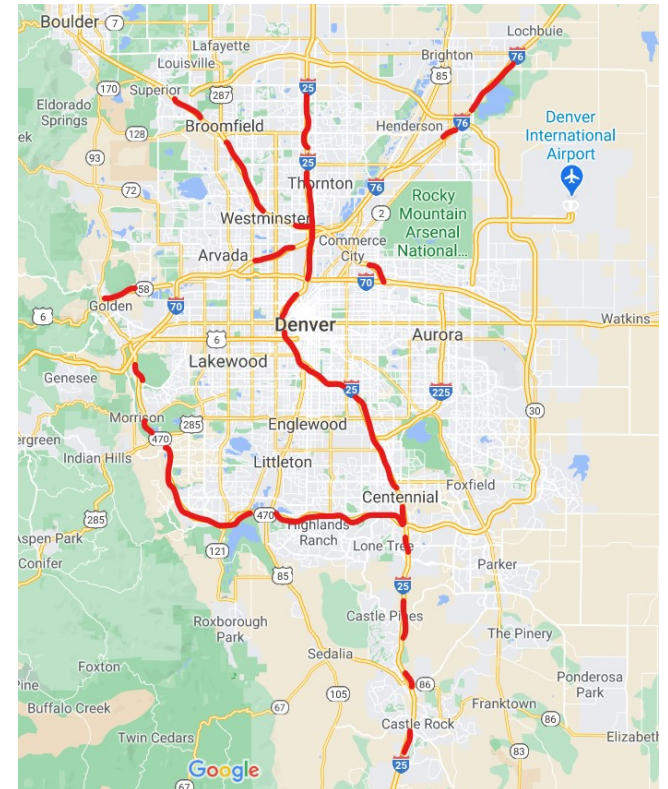

This phase of the sign replacement project will happen over an eight-month period. New signs will be installed on all off-ramps in the Denver metro area. The working area is very widespread as signs will be changed along I-25, C-470, CO 58, I-70, I-76, and US 36, as indicated on the map. Road work and travel impacts will be very minimal. Work should be completed by October of 2021. CEC Infrastructure Group, LLC is the prime contractor for this \$2.2 million project.

Why is the work being completed?

The project will greatly improve the public's safety by more effectively preventing drivers from entering the freeway in the wrong direction. Newer and much larger signs will be installed in place of the current signs to more easily catch the attention of drivers before turning onto a highway.

When will crews be working?

Work will take place Monday through Friday, 9 a.m. to 3 p.m. Weekend and night work will be performed occasionally, which would occur between the hours of 9 p.m. and 5 a.m. on Sunday through Thursday. This work will be announced in advance.

Travel Impacts

- From January to October 2021, there will be shoulder work occurring to replace wrong-way signage on various off-ramps.
- Travelers should expect very minimal travel impacts as most work will be done on the shoulder.
- General working hours are Monday - Friday, 9 a.m. to 3 p.m.
- Weekend and night construction will be occasional and announced in advance.
