

Happy Friday – The summer is flying by and there isn't a single spot on our jobsite that isn't under construction.

There is a lot going on within our busy job-site but not much that will change traffic. For the next three weeks, access to the Wendy's/Shell station from Edwards Access Road will be limited to entering the parking lot. To exit the station drivers will need to use the Miller Ranch Road Portal. There are no other anticipated traffic changes in the construction area so we'll continue to see two-way traffic on the West side of the Edwards Access Road and on the South side of Miller Ranch Road, with auxiliary turn lanes. You will also see occasional flagging on Beard Creek Road.

Crews will complete the realignment of Berry Creek this week and the diversion will be released allowing water to flow in the new configuration. It's looking great. There is a lot of other activity going on including sidewalk construction, retaining walls, temporary paving, etc... There isn't a single spot on the jobsite untouched at this point.

Each week there will be email updates about the Edwards Roundabout Interchange Project to keep all community members informed about our progress. We will also send out ALERT emails if there is an unexpected delay within the project. If you would like to be removed from this list at any time, please reply to the email and write "REMOVE" in the subject line.

For additional information about the project and pictures please contact our website at <http://www.coloradodot.info/projects/i70edwardsinterchange>. Alternatively, you may contact our public information office at 970-566-6912 or via email at EdwardsInterchange@accbuilt.com.

Sincerely,
Melissa Kline
