Intermittent Preparatory Blasting Schedule

IDAHO SPRINGS – The following traffic stops are scheduled for preparatory blasting activities at the Twin Tunnels on Interstate 70 just east of Idaho Springs*.

Thursday, Feb. 21, 2013 between 9 and 10 a.m.
All I-70 traffic will be stopped for about 20 minutes near the Twin Tunnels so crews can remove a rock outcropping near on the east side of the tunnel.

These intermittent, daytime traffic stops are scheduled to occur at the Twin Tunnels through April 1 for preparatory blasting activities. There will typically only be one preparatory blast per day and traffic will be stopped for approximately 20 minutes each time. Traffic stops will not occur during high traffic periods. Notice of the prep blasting schedule will be provided by the Twin Tunnels Public Information Team the day prior to or the morning of the blasting.

This schedule is weather dependent and subject to change. For updated project information, call our information hotline at (303) 327-4034, or visit our project website at www.coloradodot.info/projects/i70twintunnels. For current road and weather conditions you can also call 511, visit www.cotrip.org, text CDOT to 25827 or download the CDOT smartphone mobile application from your App store.

Please share this schedule with others who might benefit from knowing this information.
