

Rain, rain, go away... come again another day
 Project Update for Week Ending 5/5/16

I'm sure its not lost on anyone in town that the rain has been tough on us. Unfortunately, the forecast calls for much of the same. With that said, we've made some progress. Crews were able to open the new parking lot to the public on Monday morning. The lot, located off of North Rail Road Street, still see some minor construction activity but it shouldn't affect parking in any way.

Ridgway, CO Weather Local Pollen Alert

1:45 pm MDT

TUE May 10	62°/38°	Rain	↓ 70%	WSW 12 mph	50%

The first block of Lena continues to be under a closure to vehicle traffic until **Thursday morning, May 12**. When it reopens ACC will continue to work on the sidewalks and the driving surface will be compacted road base vs. the pavement which will follow in a few weeks. The second block of Lena, from Clinton to Charles Street will be closed **Monday, May 9th** for approximately 3 weeks. ACC will maintain pedestrian traffic and will allow the postal carriers to access the post office from the intersection of Clinton Street. Post office access will be limited to foot traffic with parking available at Hartwell Park, Clinton Street, or on the new parking lot. For your safety, please follow the direction of the flaggers and signs and only cross Lena Street in designated areas.

We intend to continue to work through Saturday for the foreseeable future allowing us to make up for these less productive days and meet project deadlines for opening of the city streets.

Stay Alert! All Week, flaggers will be initiating occasional traffic holds on SH 62 at North Lena Street as we begin building back the street, in order to provide safety for haul trucks and concrete trucks entering the project extents. This will occur during standard construction hours of 7 a.m. and 7 p.m. Traffic holds will be minimal and should not exceed 5 minutes. Pedestrians and bicyclists should use marked crosswalks and sidewalks to access the park and businesses on Lena.

Please be alert to personnel in the work zone and drive slow through the cone zone!
