

TRAFFIC? I'LL PASS.

Express Lanes offer choice and reduced congestion.

WHERE ARE THEY?

Express Lanes currently exist on I-25 from downtown Denver to 120th Avenue, US 36 to Boulder, and on I-70 West in the mountains. Additionally, Express Lanes are coming soon on C-470, North I-25 from 120th to the Northwest Parkway/E-470, from Johnstown to Fort Collins, and on I-70 East toward the airport.

WHY EXPRESS LANES?

The answer is simple: choice.

Express Lanes increase road capacity and help manage congestion on the highways, eliminating the need to continue to build more lanes. And the best part? The choice is yours. Ride the bus, carpool, pay a toll or just use the existing free general purpose lanes.

Express Lanes work to move more people, rather than move more cars. By presenting choices, Express Lanes will reduce delays, manage congestion and keep travel times reliable for motorists.

- Increase choice in travel (transit, carpool, pay a toll)
- Increase mobility through operational improvements
- Use pricing on new Express Lanes to manage travel reliability and growth
- Promote options for walking and biking

HOW TO USE

Anyone can use Express Lanes depending on their needs.

There are several ways travelers can choose to use the Express Lanes:

- By carpooling with two or more passengers on Express Lanes that offer HOV carpooling. The I-70 Mountain Express Lane and C-470 Express Lanes will not allow HOV/free carpooling.
- By transit on either priority buses or Bus Rapid Transit.
- By motorcycle for free where HOV/free carpooling is allowed.
- By paying a toll if you do not have enough passengers to meet the HOV/carpool requirements or if you are traveling on an Express Lane that does not allow carpooling.

Travelers are never forced to pay a toll and can always choose to travel in the adjacent free general purpose lanes.

GET A PASS!

To use any Colorado Express Lanes, you will need an ExpressToll pass to carpool or pay a toll without an additional surcharge.
