

INCORPORATING LOCAL PLANS

WestConnect Coalition PEL

- » The PEL Study will respect existing plans of Coalition agencies, while developing a cohesive transportation plan along the regional corridor
- » The Golden Plan establishes improvements for US 6 and SH 93 between C-470 and 56th Avenue
- » Jefferson Parkway is a separate project led by the Jefferson Parkway Public Highway Authority
 - This project is required to be considered by CDOT at locations where the Applicant's project intersects the State Highway System. It is currently under consideration in accordance with CDOT's 1601 Permitting Process
 - The PEL Study will NOT analyze or recommend alternatives for the Jefferson Parkway
 - The PEL process will only consider potential traffic implications and impacts to SH 93, with and without Parkway
