

# Starting a Hospital Based Program

## **Funding**

Develop a Budget.

Technicians:

- Paid by appointment
- Paid by hour
- Contracted
- Number of certified technicians
- Re-certification costs

Supplies:

- Child restraints
- Reference materials
- Scales
- Height charts
- Miscellaneous supplies

Where Does the Funding Come From?

Hospital funded:

- Department funded
- Foundation funded

Other funding:

- Fee based
- Grants
- Donations
- Other local organizations

## **Getting the Information to the Parents**

Where do the Parents go for Information?

Parent Education Classes:

Information for parent educators

Information to parents at orientation and tour

Safety classes encourage use of service instead of course material

Course material updated

Staff:

In-service with L&D staff

Quarterly meetings to talk about service

Daily contact

Marketing:

Website

Direct call number, hours, and location

Connection with call center

## **Setting up an Inspection Station at the Hospital**

Where are the Inspections Conducted?

Location:

Outside

Covered/not Covered

Easily accessible

Traffic

When:

How many days a week

Pre-set hours or random based on appointments

Other considerations:

Adverse weather plans

How many vehicles can the location accommodate
